

COME TOGETHER WITH THE MARSHALL WIRELESS MULTI-ROOM SYSTEM

INTRODUCING THE MARSHALL WIRELESS MULTI-ROOM SYSTEM, THE FIRST WI-FI SPEAKER RANGE FROM MARSHALL, AN UNPARALLELED LISTENING EXPERIENCE FOR THE HOME.

THE WIRELESS MULTI-ROOM SYSTEM

Wirelessly play different songs in each room, or bring it all together and play the same song throughout the entire home. Start with one speaker or several. Regardless of the space, there's a Marshall speaker to fill it.

ACTON MULTI-ROOM

Acton may be compact, but its sound is nothing short of large. It produces a well-balanced, powerful audio experience, yet it can fit on the tiniest of shelves, making it perfect for small spaces.

STANMORE MULTI-ROOM

Stanmore is the most versatile speaker in the Marshall line-up and is perfect for any room, big or small. Stanmore delivers on the promise of high-performance sound that is synonymous with the Marshall name. It produces clean and precise audio, even at the highest levels, thanks to the advanced components packed inside this music machine.

WOBURN MULTI-ROOM

The largest speaker from Marshall, Woburn features a robust sound and appearance that makes it the perfect centrepiece for even the largest of spaces or the most discerning ears. Woburn hits high trebles cleanly, handles low bass with ease and has a clear, lifelike mid range. Dual 5.25" woofers paired with a total of 110 watts of amp power pound your senses while the classic Marshall design holds your attention.

SIX WAYS TO CONNECT, ENDLESS WAYS TO LISTEN

Consider these speakers your backstage pass to every song on the planet. Access to all of the world's music has never been easier. Connect wirelessly with Chromecast built-in, Spotify Connect or AirPlay and get access to the world's most popular streaming services. Alternatively, hook up your turntable via the RCA input, make use of the 3.5 mm input or utilise a Bluetooth® connection.

SEVEN PRESETS FOR YOUR FAVOURITES

With seven one-touch presets these speakers gives you immediate access to artists, albums and playlists on Spotify or via Internet radio stations. Select your presets using the analogue controls located on the top-panel and at the push of a button you're listening to what you love most.

THE LOUDEST MULTI-ROOM SYSTEM

The Marshall Wireless Multi-Room System taps into over 50 years of experience to bring you that live feeling. Turn your entire home into your own personal venue with sound that resonates with the power of live music. Just like being in the front row.

EASY SET UP

Easily set up your single or multi-room wireless system in just a few steps. Use the Marshall Multi-Room app to customise your one-touch presets, adjust the intensity of the LEDs, tweak the equaliser or switch between speakers in a matter of seconds.
